

## ***In-House Paging Systems cc***

### **Some notes on our Quotation and Omnibus Agreement**

These notes are intended only to assist in the interpretation of our offer,  
and in no way override any of the conditions contained in  
***In-House Paging Systems cc's Omnibus Agreement***  
as amended from time to time, which is the sole agreement upon which we conduct business.

#### **Outright Purchase**

- This is the amount that would be required to own the system from date of installation.

#### **Outright Purchase with Extended Warranty**

- By purchasing the equipment outright, you will own the equipment from the date of installation. The Extended Warranty charge would be levied monthly once the normal equipment warranty of twelve months has expired. This charge includes all normal maintenance. Faulty equipment must be returned to our workshops at your expense, and we will repair or exchange it for refurbished equipment for no extra charge. We will install new batteries if required, and return the equipment to you at our expense.
- An annual escalation percentage applies.

We strongly recommend that all purchased equipment be placed on an Extended Warranty.

#### **Full Maintenance Rental**

- You may elect to use the equipment over a period of from one to five years. If you choose a period of less than five years, you may later extend the rental period for a longer period up to the maximum of five years, thus lowering your monthly rental charge.
- An annual escalation percentage applies.
- At the end of the rental period, you may either return the equipment to us, or continue to use it for as long as you like, for the monthly Extended Warranty charge, which escalates each year.
- Equipment remains the property of In-House Paging Systems unless you exercise your purchase option.
- By exercising a purchase option, you may reduce the purchase price of the equipment by a pro-rata amount, depending on how long the equipment has been on rental.  
For example, if a system has been on rental for fifteen months of a five year (sixty month) contract period, you would qualify for a "fifteen / sixtieths" (twenty-five percent) discount from the purchase price shown on the agreement. There is one proviso however, and that is that the minimum (discounted) purchase price paid will be thirty percent of the full purchase price. Thus, purchase the equipment earlier, rather than later during the agreement period.

#### **Escalation**

- All charges and prices may be escalated annually by the maximum amount shown.

#### **Cellphone SMS-Message Charges**

- A cellular network operator has been contracted by our company to provide this service; connection may only be made using our service. No contract is required between the user and the cellular network operator.
- There is minimum contract period of twelve calendar months. Thereafter, three full calendar months notice must be given before terminating the service.
- An initial "connection fee" is charged. This fee covers the cost of the SIM-card and connection to the cellular network.
- The Monthly Charge includes connection to the network and 100 SMS-messages.
- All messages in excess of 100 per calendar month are charged at the per message rate shown.
- The monthly fee may be altered should the network operator change tariffs or connection facilities. We may alter rates without notice in line with such changes.

#### **Value Added Tax**

- VAT is excluded from all charges and will be added at time of invoicing.
